MESSAGE

Dear Colleagues

Corruption is all pervasive in today's Society. It has spread its tentacles to every area of governance. It poses a grave challenge to our system. Corruption is an obstacle to progress and economic growth and wastes precious national resources. The war against corruption cannot be left to government and its agencies. The civil society and the citizens must get rid of public apathy towards corruption and fight against it in an united manner.

The Central Vigilance Commission has announced that this year Vigilance Awareness Week would be observed from October 31st – November 5th 2011. This year's theme "**Participative Vigilance**" highlights the need for involvement of all stakeholders in anti corruption activities.

Vigilance programs have been organized to observe the Vigilance Awareness Week and I request all the employees to whole-heartedly participate in the programs.

(ARUNDHATI GHOSH)
CHIEF VIGILANCE OFFICER
